Nor-Cal Vans full-size 2015 Transit Wagon will provide fleet shuttle customers with innovative new configurations and leading versatility in the expanding commercial vehicle market.

- Compared with the previous Ford full-size van, the all-new Transit Wagon offers higher fuel economy ratings for the cost-conscious fleet operators.
- New Ford 3.2L I-5 Power Stroke Turbo Diesel now available on select models.
- Modifications don't interfere with Ford Warranty.
- Available in three roof heights and three body lengths.
- Side curtain airbags down entire length of Wagon on certain models.
- Superior cargo volume and payload capacities.
- Made in the USA!
CUSTOMIZE YOUR VEHICLE
Nor-Cal Vans offers a variety of options to make your vehicle serve your needs.

BUS STYLE DOORS
Save money on upfit and fuel over traditional cutaway buses
- Optional remote operation for quick and easy operation from the driver seat or outside the vehicle
- More serviceable than traditional cutaways
- Optional luggage partition available
- Ideal for hotels, airports, schools, casinos, care homes, and more!

MOBILITY OPTIONS
Make your Ford Transit ADA-compliant
- Rear and side entry wheelchair lifts
- Multiple seating and wheelchair configurations available
- Paratransit seating available for CNG-equipped vehicles

ABILITRAX SEATING
AbiliTrax allows users to change the configuration of a vehicle in seconds
- Integrates quick disconnect seating along with other accessories using a floor grid system
- Seat removal and reinstall from a standing position with no tools
- Exclusive flip up seat allows easier handling and compact, "nest-able" storage
- Partial floor option available- no need to replace all Ford seats!

Nor-Cal Vans specializes in van conversions of Ford products. We are a Ford Pool Account as well as a Ford Qualified Vehicle Modifier (QVM). Our products are available through Ford dealers and approved Mobility Dealers nationwide.

2015 Ford Transit Sample Seating Configurations

130” SWB Mid-Top 150 Wagon

148” LWB Mid or High-Top Wagon

148” LWB High-Top Extended Length Wagon

Seating configurations are concepts and not to scale.
Nor-Cal Vans now offers AbiliTrax- a flooring platform that allows the Ford Transit to have movable seating, wheelchair positions, and accessories in a matter of seconds without having to perform extensive structural work to the vehicle.

Eliminate Choosing A Single Floor Plan
Meeting the unique design requirements often times meant special ordering exactly what was needed causing long order lead times and a grueling process of design and approval.

Your Van Changes With Your Needs
Many times after a custom vehicle was produced the needs of the users or community changed. This caused unnecessary expense and down time reconfiguring the modified vehicles to meet the new needs of the community.

Solution- AbiliTrax

Everything Becomes Quick Disconnect!
AbiliTrax is a common Platform that integrates quick disconnect STEP N LOCK / CAMLOCK seating with several different wheelchair tie-down options, wheelchair lifts, grab handles, stretcher mounts, and several other accessories using a floor grid system. This platform allows users to change the configuration of a vehicle in seconds.

AbiliTrax is made in the USA and is FMVSS and CMVSS Compliant.

Ramp Folds Flat to Adapt to Your Needs!

The innovative ramp stows flat, creating a surface for you to store cargo such as groceries or luggage, just like a standard vehicle.

The ADA-compliant ramp folds out allowing a passenger in a wheelchair to board the vehicle.

Once the wheelchair user is secured, the ramp can be folded up into the vertical position and you’re ready to go!
About Nor-Cal Vans, Inc.

Nor-Cal Vans, Inc. is a Ford Business Partner that upfits vehicles for the transportation needs of individuals with physical challenges, companies that need ADA-compliant vehicles, and other commercial transport uses. Nor-Cal Vans is seeking to create new sustainable product lines utilizing the strengths of the company and partner with other companies with similar interests.

Nor-Cal Vans, Inc. (NCV) was established as a Northern California corporation in 2003 in Chico, CA. Many milestones were achieved in its first two years of existence. Among these milestones were successful compliance tests of the NCV lowered floor conversions on the full-sized Ford E-Series and Transit Connect. The company succeeded in meeting other stringent quality standards established by Ford and was granted the privilege of Fords’ Qualified Vehicle Modifier (QVM) status.

All 200 of Nor-Cal Vans’ Mobility Dealers are members of the National Mobility Equipment Dealers Association (NMDA). NCV’s Bailment Pool Account status has allowed the company to establish working relationships with Ford Dealers nationwide, many of them are Ford Business Preferred Network (BPN) Dealers. Their relationships with these Mobility Dealers and Ford Dealers allow Nor-Cal Vans to market and distribute its products throughout the U.S. and Canada.

The flagship of the Nor-Cal Vans product line, the NCV 9” MAX lowered floor conversion, is targeted to the big and/or tall wheelchair user and is the only one of its kind in the U.S. All of Nor-Cal Vans innovative designs have been compliance tested for Federal Motor Vehicle Safety Standards (FMVSS) and California Air Resource Board (CARB) Emission Standards.

The Nor-Cal Vans website, www.Nor-CalVans.com, and current vehicle inventory are accessible to both the retail buyer and dealers. The Dealer Section of the website allows access to pricing, marketing materials, support, and communication that is not available to the consumer.
